

**Yellow warning
Ice**

Between
20:00 Sun 20 Nov 2022 and
09:30 Mon 21 Nov 2022

Icy stretches forming along with some fog and freezing fog leading to difficult traveling conditions.

What to expect

- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

A much drier and colder night than of late with a frost developing quite widely over Scotland and ice likely to form on untreated surfaces.

The northeast of Scotland will see the greatest ice risk, where surfaces are still wet from recent rain and run off from fields and higher ground. Fog or freezing fog patches are also likely to form overnight which will add to the difficult traveling conditions.

 Medium likelihood of low impacts

Issued at 15:03 Sun 20 Nov, 2022
